---

# Origin of Renaissance

- “Rebirth”
- Referring to the return of the Greek and Roman art style
- Using the Greeks and Romans’ work for inspiration

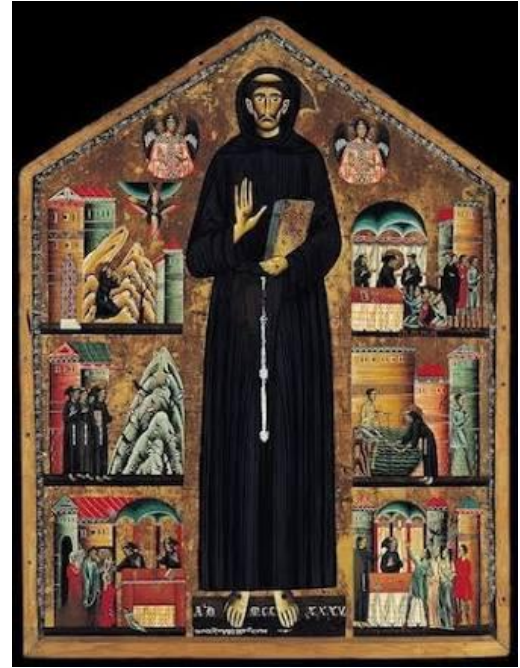

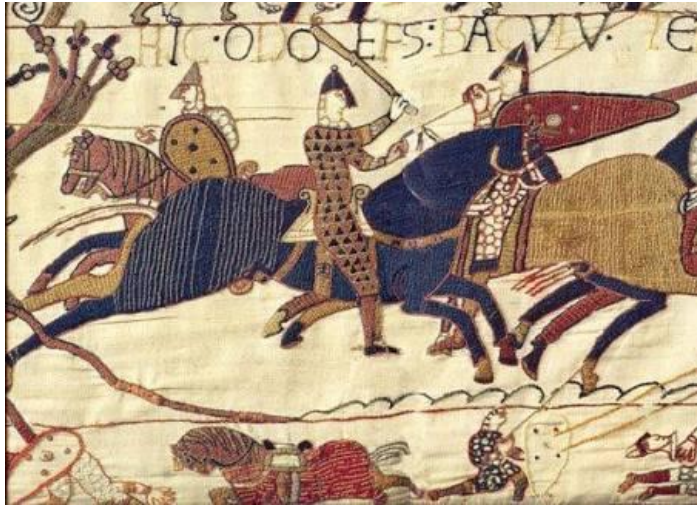

# Recall

- Romanesque and Gothic periods
- How would you describe them?

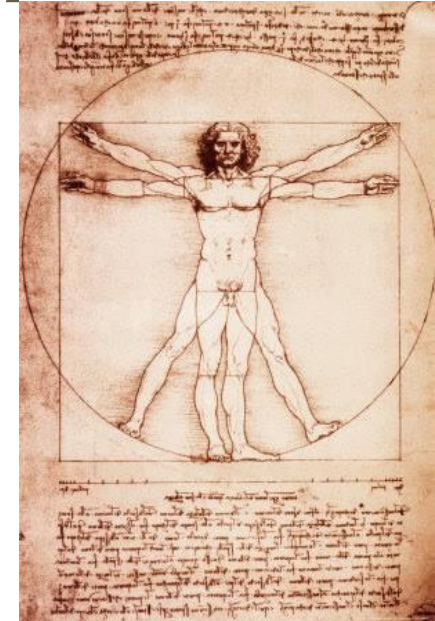

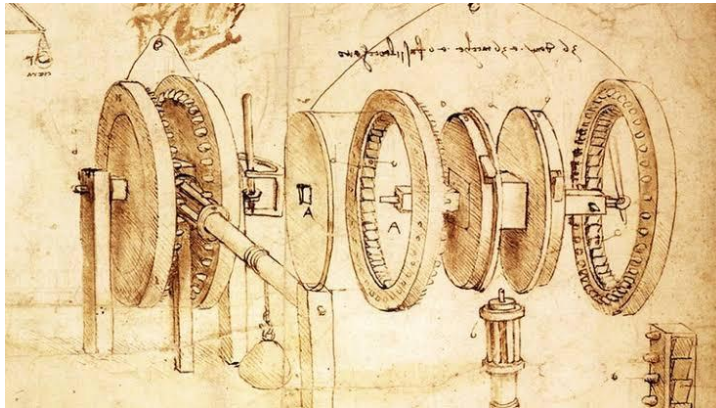

# Recall

- They are like children's drawings

# Maturation

- the child artist learns how to math
- Art mixed with measurements and proportion
- “Renaissance man”
- Age of Enlightenment

# Renaissance Art

- innovations in 3D perspective
- use of mathematics
- use of light and darkness (Chiaroscuro)
- the illusion of depth
- linear perspective

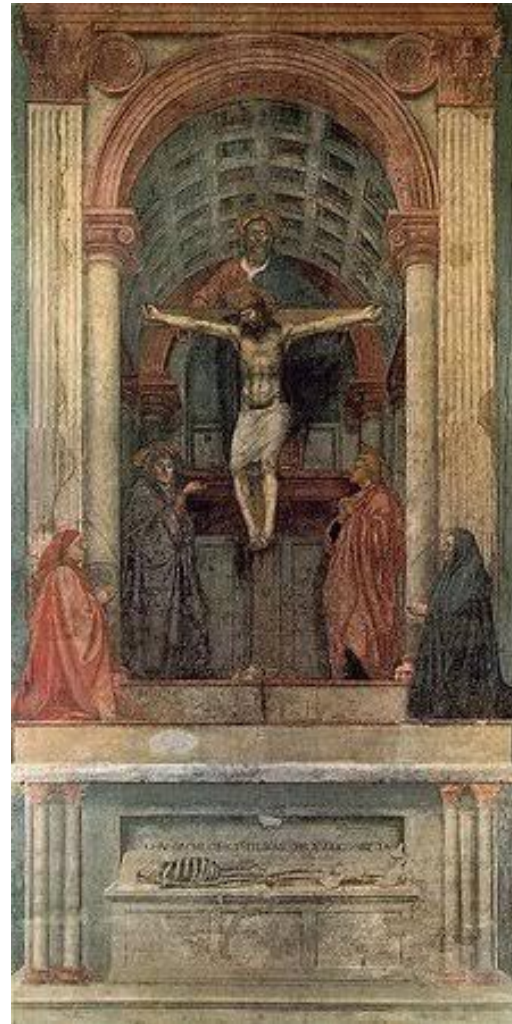

# Renaissance Art

- innovations in 3D perspective
- use of mathematics
- use of light and darkness (Chiaroscuro)
- the illusion of depth
- linear perspective

# Renaissance Art

- innovations in 3D perspective
- use of mathematics
- use of light and darkness (Chiaroscuro)
- the illusion of depth
- linear perspective

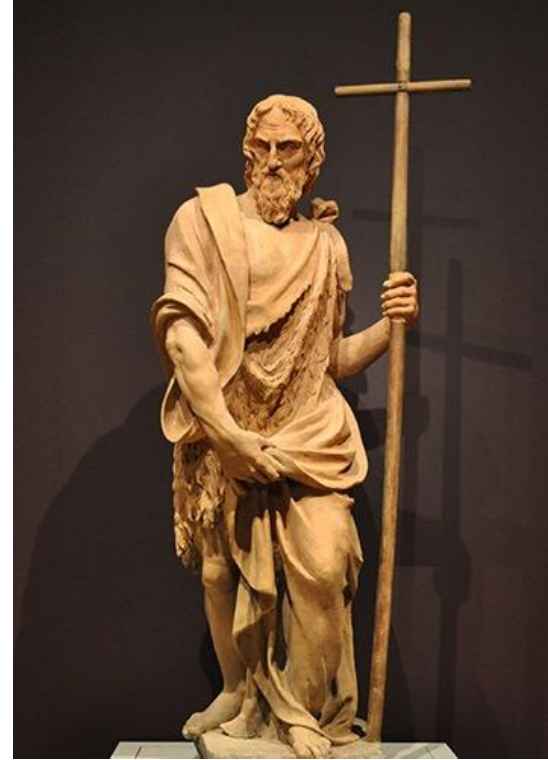

# Renaissance Art

- innovations in 3D perspective
- use of mathematics
- use of light and darkness (Chiaroscuro)
- the illusion of depth
- linear perspective

# Renaissance Art

-Greek and Roman influence on Christian art.

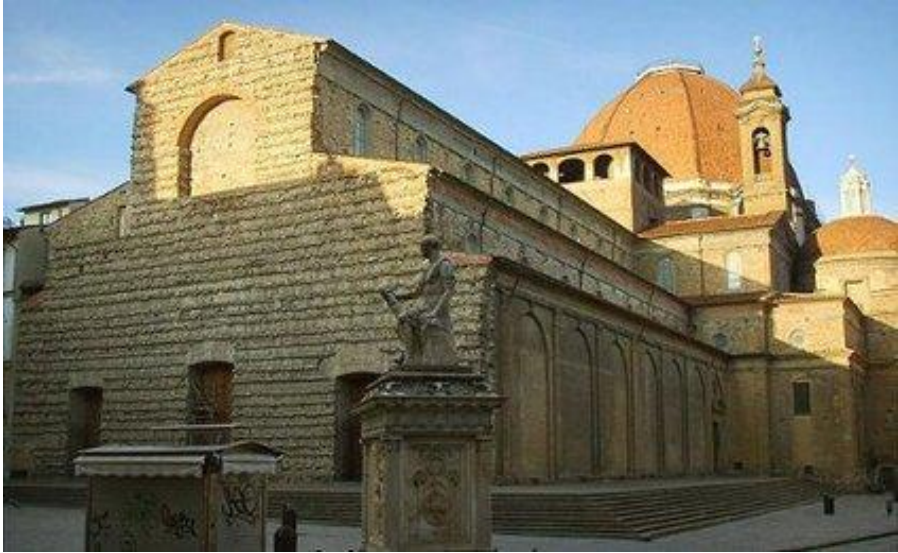

# Architecture

- Less verticality  
(compared to Gothic)
- Favored simplicity and  
balanced proportions
- “Planar classicism”
- Flat walls, round rooftops
- Structure is of more  
importance
